

EUTOS Molecular Monitoring Meeting
International Standardization of RQ-PCR
Berlin, Germany
7–8 June 2009

Molecular Standardization and Mutational Analysis: Clinical Role and Current Status <i>Sunday 7th June 2009</i>		
Session 1: Molecular Analysis Session Chair: N. Cross		
15.00	Welcome and introduction	Panel
15.10	Role of molecular monitoring in clinical practice	A Hochhaus
15.40	Standardization of molecular monitoring – rationale for EUTOS for CML	M Mueller
16.00	International standardization of RQ-PCR testing, primary reference reagents	N Cross
16.20	REFRESHMENT BREAK	
Session 2: Mutational Analysis Session Chair: G. Saglio		
16.40	Techniques for detection of mutations, status of the interlab test	T Ernst
17.10	Mutational analysis in clinical decision making	G Martinelli
17:30	Establishment of clinical recommendations for detection of mutations	S Soverini
17.50	Summary and day 1 close	G Saglio
18.00	DAY 1 END	

Implementation of National Networks in Europe <i>Monday 8th June 2009</i>		
09.00	Welcome back	Panel
Session 3: European Standardization Chair: A. Hochhaus, P. Schuld		
09:10	EUTOS for CML – cooperation between academia and industry	P Schuld
09.20	EUTOS for CML – European status and methods of molecular standardization	M Mueller
09.45	Implementing national networks	Network heads and Novartis colleagues
10.20	REFRESHMENT BREAK	
10.40	Implementing national networks (continued)	Network heads and Novartis colleagues
11.30	Resolving implementation issues	ALL
11.50	Summary and next steps	EUTOS lead investigators
12.10	Close	A Hochhaus
12.15	MEETING ENDS
